**TARIFF PICTURES.**  
The Free-traders are attacking the American tin plate industry because a part of the product is made by plating foreign black plates. They do not care to publish the fact, however, that the amount of American black plate used increased from \$6,453,449

pounds for the last quarter of 1892 to 12,444,800

pounds for the first quarter of 1893.

**Utica Herald.**—Does anybody believe the disturbances visible in the business and financial world would have occurred if the Republican party had been successful last fall?

+

NOT THAT KIND.

**St. Louis Globe-Democrat.**—Cleveland might initiate the commendable example of Harrison by appointing a Republican to succeed the late Justice Blatchford, but he isn't at all likely to do so.

+

A TARIFF PICTURE.

**Rochester Democrat and Chronicle.**—In 1880 Americans produced 37 per cent, and 1890 55 per cent, of the silk goods they used. Is there anything the mass with a system that encourages production at home rather than purchases from abroad?

+

SPEAKER CRISP'S PROBLEM.

**Providence Journal.**—As Speaker Crisp packed the Coinage Committee for free silver in the last Congress in the proportion of eight to five, it will have to throw "precedent" and "courtesy" to the winds in order to transform it into a sound money committee next month.

"THE PRESS" PROPHECIES.

The following excerpts from *The New York Press* of the several dates given will show how nearly that paper came to predicting the very state of affairs that exists to-day:

In case of Democratic success we are sure to have at least ten years of turbulency, uncertainty and want of confidence in business circles. Investors will hold their money. The contracts aggregating millions of dollars that have been made on continents, on both sides of the Atlantic, will not be carried out. Thousands upon thousands of workmen will be thrown out of employment, and there will be a general demoralization of the mind and industry.—*The Press*, October 30th, 1892.

If the result should be for Cleveland and Free-trade, anxiety, panic and paralysis of industry would be the immediate result. A wave of bankruptcy of the thousands of the industrial establishments in New York and vicinity and throughout the United States, would at once feel the effect of the influence of the blow at American workers and American goods. A period of doubt, hesitation and apprehension would be inaugurated. Capital would be withdrawn from the country, and merchants would be afraid to buy and production would be curtailed in view of the uncertainty of the future.—*The Press*, November 14th, 1892.

**The** *Press* thought Free-trade with all the might. It predicted, in the event of Democratic success, a general contraction of business enterprise and a widespread lowering of the wages of labor. It also predicted that the wage earners who were foolish enough to vote into power the party that is the implacable enemy of American industry will yet see those predictions fulfilled in the letter.—*The Press*, December 12th, 1892.

The Democracy will be held directly responsible by the voters for the general contraction of business enterprise and related lowering of wages. The Free-trade programme must bring about.—*The Press*, November 14th, 1892.

The high water mark of American wages has been passed until the election of another Republican President. The Press demands a fact, not a guess, to deny to it. The victory at the polls of the advocates of "cheap labor" means a stoppage in the gradual rise of American wages.—*The Press*, December 12th, 1892.

The Democracy will be held directly responsible by the voters for the general contraction of business enterprise and related lowering of wages. The Free-trade programme must bring about.—*The Press*, November 14th, 1892.

Bangkok to Be Bombardeed Unless the Demand

Made by France for Reparation is Accepted at Once.

Sufficient Warning Will Be Given to Representatives in That City of the Foreign Powers to Enable Them to Protect Subjects—England Attitude.

PARIS, July 14.—In accordance with his announced intention, M. Dreyfus Tuesday questioned the government in the chamber of deputies, as to the French attitude in Siam.

M. Derville, minister of foreign affairs, said in reply to the interpellation that the government disavowed any intention to interfere with Siamese independence. At the same time the government intended to insist on a conciliatory attitude between France and Siam he was requested. The interference of a third power in the dispute would not be tolerated.

With reference to the course France proposes to follow M. Derville said that if Siam did not make complete reparation for the murder of M. Gogorin, the French inspector of native militia, by a Siamese Mandarin, and for the other acts for which the French demanded satisfaction, the French would blockade the Melong river.

The foreign minister further said that if it became necessary to bombard Bangkok the Siamese capital, to enforce the demands of France, sufficient warning would be given to the representatives in that city of the foreign powers to enable them to protect the subjects of their respective countries.

After M. Derville had concluded the session by a vote of confidence adopted the order for the day expressing confidence in the government. Besides referring to the Gogorin murder, the Khone Islands incident and the bombardment of Bangkok, M. Derville spoke at some length concerning Great Britain's attitude in the dispute. He denied his promise of a complete explanation, which he took great pleasure in giving, he said, he must answer the accusation that he had acted so hurriedly toward England. The fact was, he said, that Earl of Rosebery, British foreign secretary, and marquis of Dufferin, British ambassador in Paris, had given positive assurances that England would not interfere with Siam.

The statements of Sir Edward Grey, parliamentary secretary of the British foreign office, in the house of commons Monday, had, therefore, greatly surprised the government. The remarks made by him as to the conduct of British diplomats in Siam were regarded as irreconcilable with the promises mentioned. Baron D'Estournelles, French chargé d'affaires in London, had visited the end of last week of Rosebery, from whom he expressed the intense surprise felt by the French government in view of Sir Edward Grey's declarations. The earl of Rosebery had replied that Sir Edward's words had been misinterpreted, as the mission of the British government to Siam, like that of France, as well as of those that might be sent there later, would be merely to protect British subjects in Siam and not to back Siam in her quarrel with France.

**We Still Have Too Many Goods!**

Although our recent cut price sales were splendidly patronized, hundreds of our friends securing suits at barely one-half of actual value, we find we still have too many on hand. The stringency of money matters fairly compel us to realize on them. We are going to incur a loss, but we want to make it in as short time as possible. We have about 125 light and medium shade Cassimere and Cheviot Suits, single or double-breasted sacks and cutaways that we have reduced to \$9 50 a Suit. They will be ready to show Thursday, the 20th of July, and the sale of them will continue three days, viz: Thursday, Friday and Saturday, provided they will last that long. These Suits have been selling for \$12 50, \$15 and \$18.

**STARTLING INCREASE!**

**Insanity Last Year.**  
The increase of insanity last year over the preceding year was startling. I think of it, persons suffering from nervous troubles, such as sick and nervous headaches, nervousness, convulsions, neuralgia, apoplexy, dyspepsia, rheumatism, paralysis, sciatica, gout, etc., etc. The outlook would certainly be discouraging for any of the above difficulties, and more or less are always symptoms of insanity, which, if left untreated, will in most cases end in suicide or premature death.

Franklin Miles, the noted specialist, has devoted over 20 years to the investigation of nervous diseases, and in the result of his labors has only had one patient left with the trouble named. His Restorative Nervine is a positive means of relief. If you are not suffering affection attend to him. Do not wait until your intellect is shattered or the frenzy of suicide overcomes you. Delay is dangerous.

Rev. J. J. Miller, Pastor of the M. E. church, points out the fact that delay is the cause of breakdown written. The efforts of several physicians to cure me were fruitless. I was a helpless invalid, could not eat, and did not remain in bed more than 24 hours. Lost 50 pounds in weight. Dr. Miles' treatment was the only thing that saved my life. Dr. Miles' Restorative Nervine and Nerve Tonic are the only safe and reliable medicine we can eat and sleep, and feel as well as ever. I was afflicted with a prostration over two years, and during that time was unable to work. Dr. Miles' Restorative Nervine I am entirely restored to health, and am now in full possession of my physical and mental vigor. I recommend the Nervine to a young man who also suffers from nervous trouble. Dr. Miles' remedies are considered a panacea for all nervous diseases.

Dr. Miles' Restorative Nervine is sold by all druggists a positive guarantee, or by Dr. Miles' own office, 100 Broad Street, Cincinnati, Ohio, per bottle, or six bottles for \$5, express prepaid. It is a safe, reliable medicine. Price \$1.50 per bottle. Dr. Miles' Nerve and Liver Pills, 20 cents per box, five boxes for \$1. Mailed anywhere. Free to all druggists, or by mail.
